

NATURAL AND CULTURAL HERITAGE

Capability Statement

Ecology and Heritage Partners is home to some of Australia's finest and most trusted experts in natural and cultural heritage assessment, research and management.

We have successfully delivered over 5,000 Australian projects and are widely respected and sought after for our impartial and pragmatic advice. The depth and variety of our experience allows us to offer the highest level of professional advice on projects ranging from environmental impact assessments for nationally significant projects, archaeological excavations, Cultural Heritage Management Plans, and associated geospatial solutions.

As a dynamic and regular contributor to environmental and cultural heritage policy, research and development, we remain at the forefront of our fields and are often the trusted advisor to industry, government agencies and private clients in areas of natural and cultural heritage.

What you can expect

Trusted expertise and reliable technical services. Our qualifications and experience, combined with the highest levels of professionalism, empowers us to exceed your expectations of quality advice and project delivery.

Practical outcomes and innovative solutions. Because we appreciate the success of your project is of the highest priority, we commit to an innovative problem-solving and pragmatic approach within agreed timeframes.

Safe guidance through your obligations. Keeping abreast of relevant legislation, assessment requirements and approval processes across Australia can be problematic, and mistakes can be costly. Our expertise and industry relationships enable us to minimise risk and safely navigate you through your projects on time and on budget.

Client focus and exceptional project management. A focus on understanding your needs, on service, relationships and confidentiality means our clients come back time and again.
