

TERRESTRIAL ECOLOGY

Capability Statement

ecology & heritage
partners

Ecology and Heritage Partners has a large, established team of experienced ecologists offering a full suite of ecological services from pre-feasibility, planning and approvals, through to construction and operation of projects.

We have successfully delivered over 4,000 projects throughout Australia, and provide a valued and respected service in baseline ecological surveys, vegetation survey and mapping, Environmental Impact Assessments, flora and fauna management plans, and associated geospatial mapping solutions.

Our record of trusted advice to Commonwealth, state and local government agencies, corporate and private clients, coupled with an intimate knowledge of relevant legislation eg. EPBC Act and approval processes, allows us to safely navigate you through your obligations and achieve successful project outcomes.

Capabilities

- › Baseline flora and fauna surveys
- › Conservation Management Plans
- › Delivery of biodiversity and vegetation offsets
- › Due diligence and desktop constraints assessments
- › Environmental auditing, monitoring and compliance
- › Expert witness (appeals tribunals and Panel hearings)
- › Land management and restoration
- › Permit and licence applications
- › Pest Species Management Plans
- › Pre-clearing surveys
- › Research and monitoring programs
- › Species translocation/relocation
- › Strategic assessment and planning
- › Targeted significant species surveys
- › Translocation of significant species (eg. fauna spotter-catcher services)

Projects

- › **Growing Grass Frog Sub-Regional Species Strategy:** Victorian Department of Environment, Land, Water and Planning
